NexGate brand mark

Logo guidelines v1.0 · NexBuild Technologies · October 2026

PRIMARY LOGO

The mark: an N made of two gate posts and a gate leaf. The dot on top of the right post is the live visitor alert.

MARK CONSTRUCTION AND ANDROID ADAPTIVE ICON

Posts + gate leaf: two posts joined by one solid diagonal, round caps.
Live dot: caps the right post with a small gap, so both columns are the same height. It is the visitor alert. Never attach it to the post.
Safe zone: the whole mark sits inside the 66dp circle of the 108dp adaptive canvas, so every launcher mask shows it intact.
Layers: blue background, white and tint foreground, single-colour monochrome layer for themed icons.

Squircle Circle Teardrop Themed (mono)

COLOUR

Gate Blue
#2563EB
RGB 37, 99, 235

Backgrounds

TYPOGRAPHY

Wordmark: **Poppins Medium** "Nex" + **Poppins Bold** "Gate", set as outlines in the logo files. Do not retype it.
Headlines and product copy: **Inter** (Bold / Medium / Regular).

LOGO VERSIONS

Stacked, single-colour black, and single-colour white versions. Use black or white only when one colour is all that is available.

CLEAR SPACE AND MINIMUM SIZE

Clear space: keep at least half the icon height free on all sides.
Minimum size: icon 24 px (16 px favicon). Horizontal logo 110 px wide. Stacked logo 80 px wide.
Backgrounds: use the blue-tile logo on white or light, the white-tile logo on navy or photos with a dark overlay.

MISUSE

Do not stretch or squash

Do not recolour the mark

Do not add shadows or effects

Do not rotate or tilt
